

CAMBRIAN ACADEMY SUCCESS STORIES

Soccer Program

Because of our relationship with the San Jose Quakes Academy, Drake got the best of both worlds.

He practiced with the San Jose Quakes Player Development League, and had his academic classes at Cambrian Academy.

Now he plays Goalie for UC Berkeley—**on full scholarship.**

Motorsports and Mechanical Engineering

Because of our racing team and connections with the SAE programs at various universities, Kyle gets to pursue his dreams at San Jose State University.

We support the sports that other schools don't.

Horseback Riding, Golf, Tennis, Sailing, Martial Arts, and others...

To train at a level worthy of college scholarships, you may need to miss some school. You will need to train when the best coaches are available. You need to be available when the college recruiters are in town.

At Cambrian Academy, we understand this. We won't force you to choose between your sport and academics. We arrange your class schedule so we can provide colleges with exceptional student-athletes.

EVERY STORY IS A SUCCESS STORY

At Cambrian Academy

100% of our graduates have been accepted to college. We believe that is what a College Prep school is supposed to accomplish. A college preparatory school is much more than just a high school.

- From the very first year, counselors work with the students to teach them about all the amazing college programs that are available.
- Students learn about themselves and their interests.
- They learn how to be successful with the tests that will matter most.
- They learn how to fill out their experience with real community service, as well as participation across a variety of disciplines.
- They are prepared for the college application process.
- They will know how to intelligently choose from among the offers they receive.
- They will have an idea of what to expect once they enter college life.

It is not only about the cool sports. Not all students are into sports.

We also support Science, Technology, and the Arts

...and also students who want to learn at a faster pace.

For Example:

Jenna learns way faster when she is allowed to study at her own pace. She took high school classes during her middle school years at Cambrian Academy. In 2016, at the age of 15, she got a **perfect score on the PSAT**.

In 2017, she graduated at the top of her Cambrian Academy class, and was accepted to MIT as a **National Merit Scholar**.

**Cambrian
Academy**
COLLEGE PREPARATORY

**Massachusetts
Institute of
Technology**

It's time to write your
own success story!
