## APPLICATION NOTES

### Advanced students:

Our **placement by ability** policy means that we do not hold back students who we determine to be able to work at a higher level than their peers. This typically results in students being able to take early AP classes and **college dual-enrollment classes** and starting their college career in advanced standing with transferable college credit. Because some of our students enter college with one or two years of college credit, parents can consider more expensive colleges. Graduating from college in three years instead of four or five is an automatic savings of 25%. We also work with our seniors to locate scholarships in addition to the typical merit scholarships received with their college admission offers.

### Students who may have fallen behind:

This policy **also** allows us to help students **rebuild their academic foundation** when they have fallen behind for a variety of possible reasons. We are currently putting a huge emphasis on our incoming middle school students who came from schools that shut down and taught very little during the pandemic. It has been heartbreaking to witness, but we remain committed to helping new students understand that they CAN learn.

Because of the exceptional focus we place on helping each individual, we are placing a **limit** on how many students we accept who are not yet working at grade level in one or more subjects. **We expect any diagnosed or suspected conditions that may affect learning outcomes to be disclosed on the application.**

**Therefore, students who are not working at grade level should apply as soon as possible.** Such students may also wish to consider joining us mid-year. If you wish to join us **mid-year**, please contact our office directly at [admissions@cambrianacademy.org](mailto:admissions@cambrianacademy.org). Preparing for a smooth transition mid-year requires additional preparation on our part during our December break, so these requests need to happen during October or November. Tuition is prorated at 55%, not 50% when starting in January.

### Are you ready?

Most families, before submitting an application, have inquired and had questions answered by a live person. At that point, we provide a more detailed brochure and a link to a virtual tour video. If you still have questions, please contact our office at **(408) 833-7050** before submitting your application. \*

If you are ready, go ahead and submit this application **along with the items listed on Page 3.**

### ADMISSION OFFER TIMELINE FOR 2026-2027

- Between now and December 18, we will send offers to and confirm up to 5 new students per grade level.
- Current families will then have until January 16 to confirm their space for 2026-2027.
- Then, offers will be sent out based on space remaining.

\* Late inquiries during April and May will receive application and additional information via email, will submit a complete application, and be invited for a visit if the student applicant appears to be a good fit for an available space. Admission offers that follow will have an expiration date to allow adequate time for a decision.
