## SUMMER SCHOOL CLASSES 2020

### Math - 4 Mornings per Week (Monday-Thursday)

Summer math will focus on developing the student's **abstract math skills** by reviewing the basic mathematical relationships and moving into algebraic applications. Even students who have completed an algebra class may benefit from this four-week session. These are the skills tested on the SAT, and a strong conceptual grasp is necessary to do well.

#### Pre-Algebra

The goal of Pre-Algebra is to develop fluency with rational numbers and proportional relationships. Students will extend their elementary skills and begin to learn algebra concepts that serve as a transition into formal Algebra and Geometry.

#### Algebra, Geometry, Algebra 2

The main goal of Algebra is to develop fluency in working with linear equations. Students will extend their experiences with tables, graphs, and equations and solve linear equations and inequalities and systems of linear equations and inequalities. Students will analyze situations verbally, numerically, graphically, and symbolically.

### English as a Second Language - 4 Mornings per Week

Students will be immersed in ESL classes in which they learn to speak and write in the **English language**.

Our Oxford ESL workbooks relate the student's native language to the English lesson of the day, allowing students to hone their skills more quickly. Students will also practice English phonics, accent reduction, and public speaking. The four-week session will end with the students preparing a video speech to send home to their families.

International students will have the opportunity to attend classes and activities with Cambrian Academy's local students and gain friendships that will later span the globe.

*Cambrian Academy is authorized by the United States government to issue I-20 visas to non-immigrant foreign students. We can do so for students who are committing to join our full-year academic program working toward college admission.*

**INTERNATIONAL STUDENT SUMMER SCHOOL** is intended for the following:

- **International students** who are joining Cambrian Academy's full-time program in the fall. This is a great way for our F1 students to meet the staff and prepare for the coming year. Students can begin to improve the skill necessary for a successful school year.
- **Current Cambrian Academy students** who are required to do make-up work or to repair a low grade from the current school year. These students will be placed in the available appropriate class to complete the necessary coursework.
- **Visiting students** whose presence is incidental to a relative's current legal status. We do not issue Form I-20 for summer or partial school years.
